## Intellicom Achieves Microsoft Competency

KEARNEY, Nebraska, United States - March, 15, 2016 -- Intellicom, today announced it has achieved a Silver Small and Midmarket Cloud Solutions

competency, demonstrating its ability to meet Microsoft Corp. customers' evolving needs in today's dynamic business environment. To earn a Microsoft silver competency, partners must successfully demonstrate expertise through rigorous exams, culminating in Microsoft certifications. And to ensure the highest quality of services, Microsoft requires customer references for successful implementation and customer satisfaction. In addition, Intellicom also holds Microsoft Competencies in Midmarket Solution Provider and Volume Licensing.

"This Microsoft Silver Small and Midmarket Cloud Solutions competency showcases our expertise in today's technology market and demonstrates our knowledge of Microsoft and its products," said Bryan Kuntz, VP of Operations. "Our plan is to accelerate our customers' success by serving as technology advisors for their business demands."

"By achieving a silver competency, organizations have proven their expertise in specific technology areas, placing them among the top 5 percent of Microsoft partners worldwide," said Phil Sorgen, corporate vice president, Worldwide Partner Group at Microsoft Corp. "When customers look for an IT partner to meet their business challenges, choosing a company that has attained Microsoft competencies is a smart move. These are highly qualified professionals with access to Microsoft technical support and product teams."

Intellicom has been the leader in business class technology solutions in Central Nebraska since 1994. Whether you are a small business or enterprise class corporation, Intellicom has a solution that will fit your needs. Intellicom routinely works with clients in a wide variety of vertical industries and have significant expertise in the healthcare, banking, manufacturing, and agricultural sectors among others.

## Support for SQL 2005 Ending

Extended support for SQL Server 2005 ends on April 12, 2016. If you are still running SQL Server 2005 after April 12, 2016, you will no longer receive security updates. Now is the time to upgrade to SQL Server 2014 to achieve breakthrough performance, maintain security and compliance, and optimize your data platform infrastructure.

## Meet the Staff: Rochelle Edwards - Web Designer

Rochelle Edwards is the Lead Web Designer at Intellicom. In this position, she is responsible for working on a wide range of projects for our customer base. Her areas of expertise include web design, web hosting, social media implementation, and search engine optimization. Prior to Intellicom, Rochelle had been employed by the City of Kearney for 7 years and had also done some freelance graphic design and multimedia work.

Rochelle graduated from the University of Nebraska at Kearney in 2005 with a Bachelor of Science degree in Multimedia with a Minor in Graphic Design.

**Favorite Movie:** For Love of the Game.
