Server 2016 is Now Available

The cloud offers IT organizations opportunities to flourish under a new model that delivers faster time to value and innovation. Many organizations, however, face strict compliance or business requirements. For organizations that need it all—security, efficiency, and innovation—Windows Server 2016 delivers it. Windows Server 2016 is the cloud-ready operating system that supports your current workloads while introducing new technologies that make it easy to transition to cloud computing when you are ready.

Security
Windows Server 2016 includes built-in breach resistance to help thwart attacks on your systems and meet compliance goals. Even if someone finds a way into your environment, the layers of security built into Windows Server 2016 limit the damage they can cause and help detect suspicious activity.

Infrastructure
Datacenter operations are struggling to reduce costs while handling more data traffic. New applications stretch the operational fabric and create infrastructure backlogs that can slow business. As organizations push the boundaries of highly virtualized environments, they can use Windows Server 2016 capabilities to meet operational and security challenges, freeing up IT resources to plan a strategy that uses the cloud for future applications and solutions.

Affordable high-performance storage
Storage systems are critical to the performance of most business applications. But traditional, expensive, manually configured storage systems can prevent organizations from realizing the efficiency benefits of a software-defined datacenter. In contrast, the Azure-inspired, software-defined storage capabilities in Windows Server 2016 use policies and automation to reduce costs and add scale.

Domain Name Pricing

Due to dramatic cost increase from our supplier, Intellicom has repriced our domain name renewal offering. We have taken the opportunity to simplify our tiered pricing as well.

1 year renewal - $37.95 per year
2-5 year renewal - $34.95 per year
6-9 year renewal - $29.95 per year

Meet the Staff:
Bryan Kuntz - VP of Operations

Bryan Kuntz is the VP of Operations for Intellicom. In this role, Bryan is responsible for the day to day operations of the company, recruiting and hiring employees, and ensuring that Intellicom customers receive a high degree of customer service.
